Just imagine your own synthetic grass similar to that seen on TV on sports fields but specially made for private homes and/or commercial properties:

- Never needs mowing
- No more topsoil, compost or fertilizer to buy every year
- No more worry about weeds, white worms or infestations of other pests
- No more private contracts for watering
- Easy to install by yourself or by our qualified personnel

BENEFIT AS NEVER BEFORE ...

With a synthetic grass lawn you will have the freedom to enjoy more of your time - perhaps a little extra for your flower garden or other activities.

Your property will always look its best for your guests because the synthetic grass fibres look just like real natural grass.
